

# Same Day Emergency Care

Dr Cliff Mann

National Clinical Advisor

Co-Chair SDEC Programme Board

# Thanks for attending

---

**Not here to lecture**

---

Not here to patronize

---

Not here to claim this is a transformational imperative

---

**We are here because**

---

This works

---

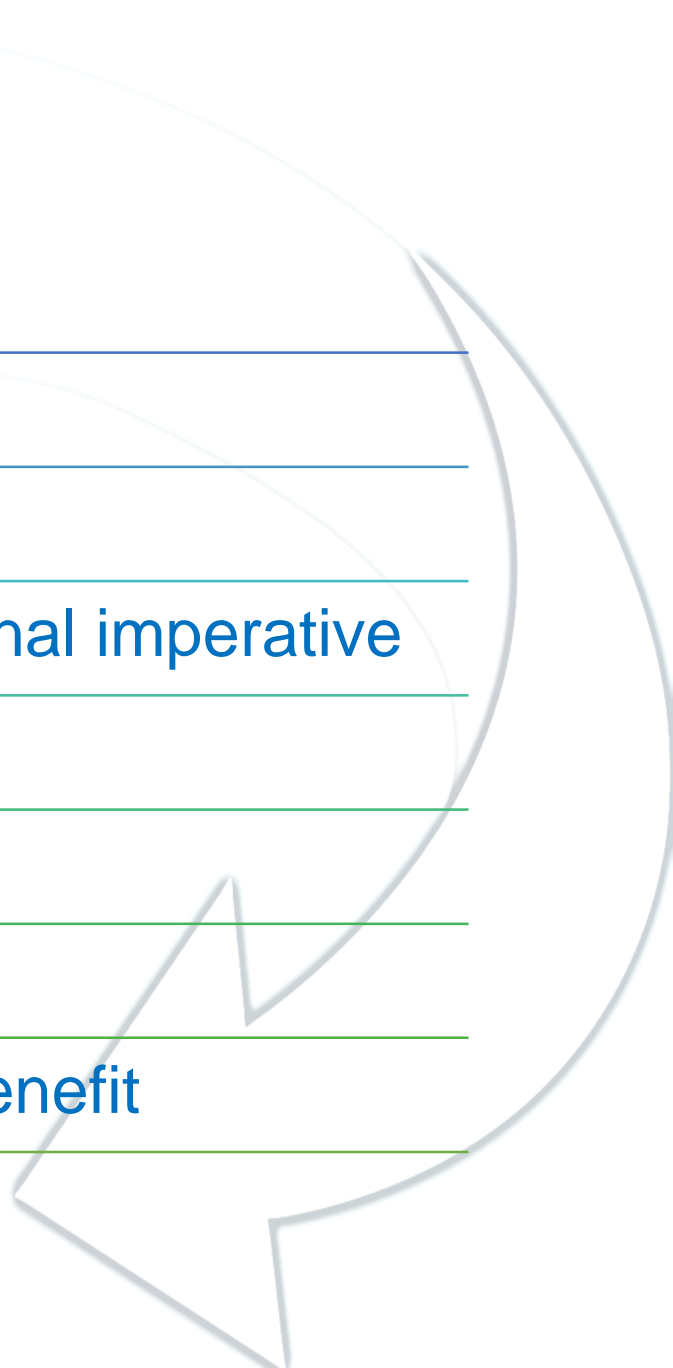

Most trusts already do some of this

---

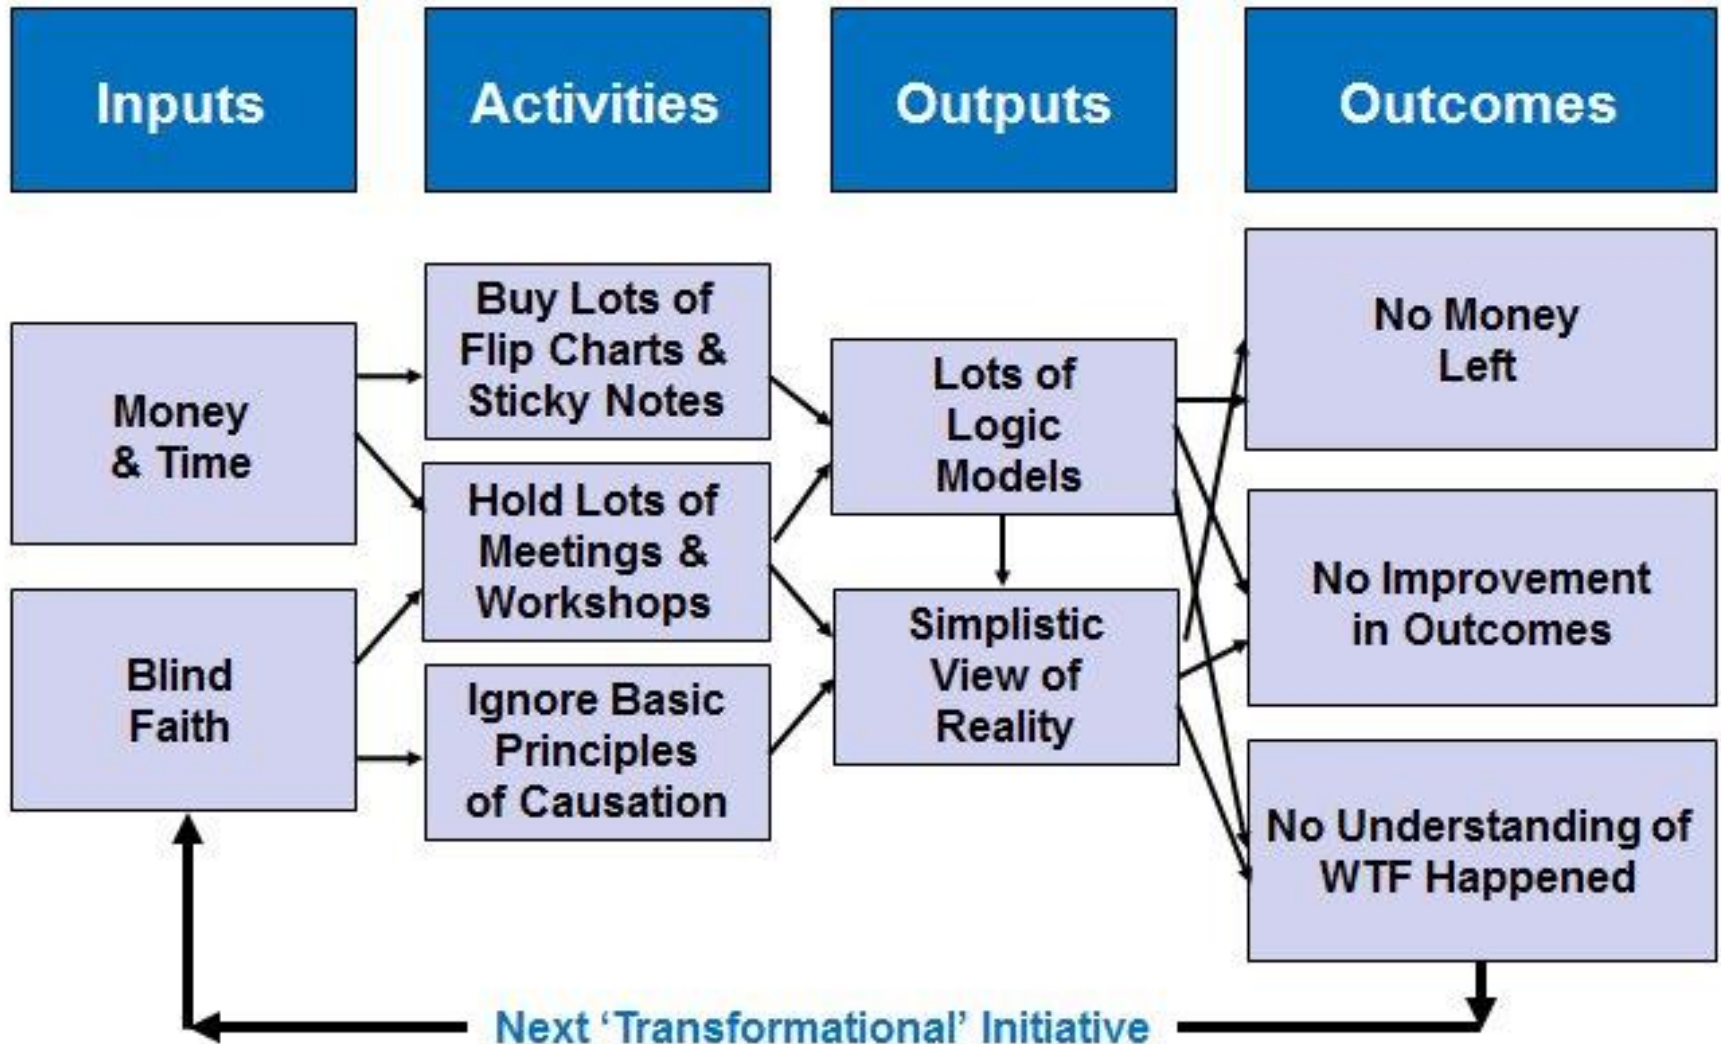

If we did more – more patients would benefit

---

It would be cost (? Price) efficient

# Another transformational project, perhaps?

**Figure 5:<sup>†</sup> Proportion of total bed days for emergency admissions and elective admissions**

\* CQC figures for 2016/17 (<http://www.cqc.org.uk/sites/default/files/state-care-independent-acute-hospitals.pdf>).

<sup>†</sup> Health Foundation analysis of Hospital Episode Statistics data. Where patients were transferred from one hospital to another, we included the length of the subsequent hospital stay.

**1.30. Under this Long Term Plan, every acute hospital with a type 1 A&E department will move to a comprehensive model of Same Day Emergency Care. This will increase the proportion of acute admissions discharged on the day of attendance from a fifth to a third**

SDEC patients  
= 22% of all  
acute  
admissions

(16% ED,  
6% direct)

Moving from 'a  
fifth to a third' =  
13 % absolute  
increase

= 782,600  
fewer MN  
stays

= 4% reduction  
in bed  
occupancy

£1.1  
billion

## Milestones for urgent and emergency care

- In 2019 England will be covered by a 24/7 Integrated Urgent Care Service, accessible via NHS 111 or online.
- All hospitals with a major A&E department will:
  - Provide SDEC services at least 12 hours a day, 7 days a week by the end of 2019/20
  - Provide an acute frailty service for at least 70 hours a week. They will work towards achieving clinical frailty assessment within 30 minutes of arrival;
  - Aim to record 100% of patient activity in A&E, UTCs and SDEC via ECDS by March 2020
- Test and begin implementing the new emergency and urgent care standards arising from the Clinical Standards Review, by October 2019
- Further reduce DTOC, in partnership with local authorities.
- By 2023, CAS will typically act as the single point of access for patients, carers and health professionals for integrated urgent care and discharge from hospital care.
