

# New Frontiers in Frailty

An international conference provided by the Acute Frailty Network supported by NHS Improvement.

**27<sup>th</sup> June 2019**

9am – 4.30pm, Central London

*“The essential event for anyone interested in improving care for older people”*

**Professor Simon Conroy**  
University Hospitals of Leicester

## Why attend?

- Be inspired by renowned international speakers sharing best practice across the globe
- Hear about the very latest best practice in acute frailty
- Gain practical insights that can be used to improve your services
- Meet with like-minded colleagues from across the UK

## What topics does it cover?

- Understanding the experience of patients and carers
- The system response to effectively managing frail older people
- The importance of frailty identification
- Clinical case studies
- Understanding National priorities
- Developing Same Day Emergency Care in frailty
- A variety of breakout sessions to include understanding patient experience, developing geriatric competencies in the wider workforce, frailty & ED and pre hospital frailty care
